Medications on the PrudentRx specialty drug list are subject to change without notice. Program eligibility and plan coverage for any specific medication are not guaranteed and are strictly subject to, and may be limited by, applicable state legislation, local regulations, and individual plan design. Your plan may not cover certain medications even though they appear on the PrudentRx drug list. Payments made on your behalf for the medication on this list, including amounts paid by a manufacturer's copay assistance program, will not count toward your plan deductible or out-of-pocket maximum (if any), unless otherwise required by law.

¹Payments made by you for a medication that does not qualify as an "essential health benefit" under the Affordable Care Act (ACA), will not count toward your deductible or out-of-pocket maximum (if any), unless otherwise required by law. If you are enrolled in a high-deductible health plan with a health savings account, payments made by you for medications covered by your plan will count toward your deductible. Some high-deductible health plans with a health savings account consider all medications covered by the plan as an "essential health benefit," allowing payments made by you to count toward your deductible and out-of-pocket maximum.

²If enrolled in a high-deductible health plan (HDHP) with a health savings account (HSA) these medications are not included in the PrudentRx program drug list. For all other plans, continue to fill these medications through approved pharmacy.
